1.0
fraction of steps that repeat the previous value
ganglia (n=382)
logics (n=218)
vertiv (n=199)
slurm (n=165)
ipmi (n=160)
schneider (n=158)
weather (n=80)
nagios (n=40)
All families lie on one band: r = -0.84, and repetition fraction explains 77.6% of entropy variance.
